EDUCATION

PCCoE, Savitribai Phule Pune University (SPPU) <i>Master of Computer Applications (MCA) SGPA: 8.6</i>	Pune, Maharashtra 2025 – Present
KTHM College, Savitribai Phule Pune University (SPPU) <i>Bachelor of Computer Applications (BCA) CGPA: 9.25</i>	Nashik, Maharashtra 2022 – 2025
HSC – Maharashtra State Board <i>Science 78.50%</i>	Aurangabad, Maharashtra 2022
SSC – Maharashtra State Board <i>91.40%</i>	Aurangabad, Maharashtra 2020

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL (MySQL), HTML/CSS
Frameworks: React, Node.js, Express.js, Bootstrap
Developer Tools: Git, VS Code
Database: MongoDB, MySQL

RELEVANT COURSEWORK

Data Structures and Algorithms
Object-Oriented Programming (Java)
Database Management Systems
Operating Systems
Web Development

PROJECTS

- AptiPrep** (*MERN Stack, Redis, Socket.io, JWT, Tailwind CSS*) [GitHub](#) Feb 2026 – Apr 2026
- Built a full-stack examination platform with real-time proctoring, live leaderboards via Redis Sorted Sets, and role-based access control using the MERN stack and Socket.io
 - Engineered secure JWT auth with refresh token rotation, httpOnly cookies, OTP-based password reset, and Redis-backed rate limiting with in-memory fallback
 - Developed a tamper-proof server-side scoring engine with partial and negative marking, and automated the test lifecycle using cron jobs for auto-publish, auto-submit, and rank calculation
 - Integrated Cloudinary for image uploads, Brevo SMTP for email invitations, and a multi-channel notification system with real-time WebSocket delivery
- Dhanadai Rental** (*MERN Stack, Vite PWA, pdfkit, node-cron, JWT, Tailwind CSS*) [Live](#) Dec 2025 – Jan 2026
- Architected a multilingual (Marathi, Hindi, English) Progressive Web App (PWA) using React and Vite, currently deployed on Vercel and actively used by a local business client to digitize daily rental operations
 - Engineered an offline-first synchronization engine leveraging `localStorage` to queue state mutations during network drops, automatically reconciling data with the backend API upon reconnection
 - Developed a dynamic PDF reporting module via `pdfkit` with custom Devanagari fonts, programmatically aggregating monthly revenue, item-wise analytics, and top customer business volume
 - Automated the rental lifecycle with `node-cron` background jobs to evaluate overdue statuses, generating localized WhatsApp deep links to completely bypass expensive SMS gateway costs
 - Designed a robust REST API hosted on Railway, utilizing Mongoose schemas to manage complex partial returns, dynamic pricing histories, and stateless JWT authentication with bcrypt-hashed PINs

ACHIEVEMENTS

MAH-CET 2025: Secured **99.20 percentile**
LeetCode: Solved 120+ problems
